

Logger type CTD with fast optical DO sensor

RINKO-Profiler

ASTD100/101/102/
103/150/151/152/153

JQA0950

Multi parameter handy CTD

- Fast-response DO sensor (90%: less than 1 s in air)
- Built-in memory
- Built-in rechargeable lithium-ion batteries
- Vertical data sampling at 10 cm pitch
- Continuous vertical data sampling at 0.5 m s^{-1}
- Corrosion prevention (titanium case)
- Light weight design (approx. 2.0 kg in air and 1.0 kg in water)

RINKO-Profiler

ASTD100/101/102/103/
150/151/152/153

■ Description

The RINKO-Profiler is a CTD with a fast-responding DO sensor as standard. The fast response time (0.4 s) reduces observation time, while achieving a detailed DO vertical distribution. You can measure water temperature, salinity and DO vertical profile measurement easily without a cable due to light weight (approx. 1.0 kg in water) and built-in recording design (The ASTD 152 model can also measure chlorophyll and turbidity as well). The high-capacity internal memory (1 GB) allows for recording up to 1,000 profiles (of 100 m depth at 0.1 s of sampling rate). Each profile is dated using the instrument internal clock. The power source is a rechargeable lithium battery that allows continuous use up to 10 h and 3 h of charge time. The RINKO-Profiler communicates between the interface and

the PC recharging the battery without opening the pressure case. The RINKO-Profiler series have two types of interfaces: a PC communication model and a model that comes with a printer.

■ Instrument specification

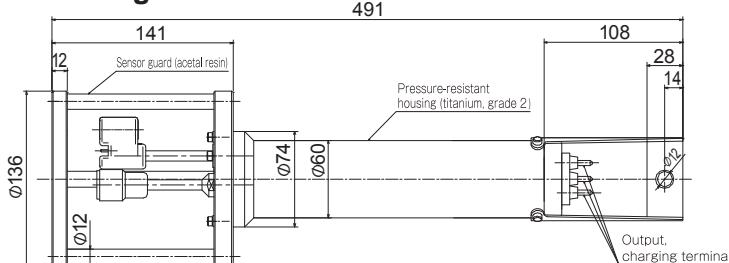

Measurement mode	Depth trigger mode	Time trigger mode
Measurement interval	0.1/0.2/0.5/1 m	0.1 to 600 s
Memory medium	1 GB built-in memory	
Power source	Rechargeable lithium ion battery (approx. 10 h of continual use possible)	
Material	Titanium (grade 2)	
Dimensions	Φ136 × 491 mm	
Weight	Approx. 2.0 kg in air, 1.0 kg in water	
Date rating	1,000 m depth equivalent	

■ Interface (ASTD-IF)

Power source	100 to 240 V AC or AA alkaline battery (maximum 4 batteries, approx. 40 h)
Dimensions	W170 × D169 × H66 mm
Weight	Approx. 1.0 kg
Remark	Incl. a signal cable, a power source cable, a communication cable

■ Drawing

■ Printer (P-601)

Printed items	Depth, temperature, salinity, DO, chlorophyll, turbidity
Functions	Data printing, observation setting, data communication, sensor charging
Dimensions	W330 × D200 × H220 mm
Weight	Approx. 3.8 kg
Waterproof characteristics	Simple splash-proof structure
Remark	Incl. a signal cable, a power source cable, a communication cable
